

BRINGING QUALITY TO THE SURFACE

**IRISH TAR**

## **CATIONIC 65% TACKCOAT (C65B3)**

**Cationic 65%** is a bituminous tackcoat with a high binder content that is used to promote adhesion between successive bituminous layers of asphalt. It may be also used as a patching material.

### **ADVANTAGES OF CATIONIC 65%**

- It is a storage stable emulsion.
- It promotes good adhesion between bituminous layers.
- It is suitable for hand and mechanical sprayers.
- It can be applied at ambient temperature.

**Rate of Spread** 0.3 l/m<sup>2</sup>

**Cationic 65%** complies with The NRA Binder Specifications: RC 380/13 Table 1.
