

BRINGING QUALITY TO THE SURFACE

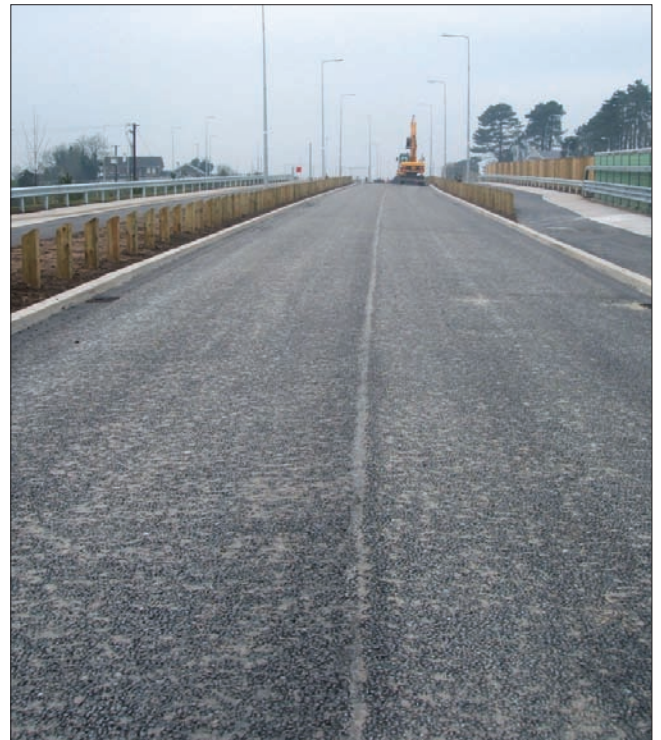

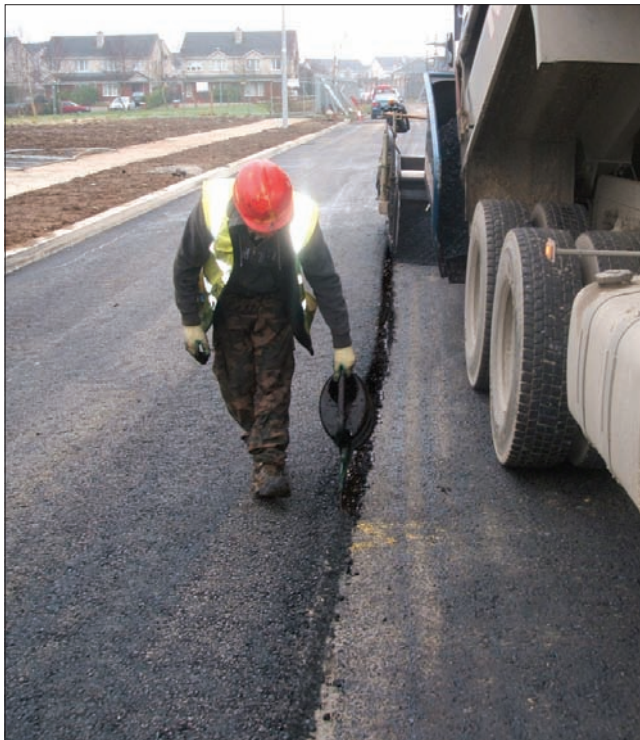

**IRISH TAR**

## **COLDPOUR**

### **COLD-APPLIED JOINTING MATERIAL**

#### **PRINCIPAL APPLICATION**

A polymer modified bitumen emulsion used for sealing of hot vertical asphalt surfaces.

#### **ADVANTAGES OF COLDPOUR**

- Water based, polymer material, applied cold as a single component.
- It provides an excellent bond between the asphalt layers.
- It is an environmentally friendly product.
- It is safe to handle and does not pose any health hazards when handled in accordance with good safety practice.
